

First French-Argentine

Immunology Congress

First French-Argentine Immunology Congress

LVIII Reunión Anual de la Sociedad Argentina de Inmunología

XIII Jornada Científica del Grupo Rioplatense de Citometría de Flujo

3º Jornadas Argentinas de Inmunodeficiencias Primarias (SAP)

Buenos Aires, Argentina

2nd-5th November, 2010

www.faic-cooperation.com

www.inmunologia.org.ar

November 2nd

School of Medicine, Buenos Aires University, Aula Magna (Main Floor)	
17:30 - 20:00	REGISTRATION
18:30 - 19:30	Opening Ceremony FAIC Organizers: E. Chuluyan, E. Piaggio and J. Cohen Decano Facultad de Medicina: Prof. Alfredo Buzzi; Rector UBA: Dr. Ruben Hallu; Ministro de Salud CABA: Dr. Jorge Lemus; Ministro de Educación: Prof. Alberto Estanislao Sileoni; Ministro de Ciencia y Tecnología e Innovación Productiva: Prof. Dr. Lino Barañao; Embajador de Francia: Jean-Pierre Asvazardourian
19:30 - 20:30	Opening Conference - Chairman: J. Wietzerbin Sebastian Amigorena: " Antigen cross presentation in dendritic cells "
20:30 - 21:00	Cultural Activity
21:00 - 22:00	Welcome cocktail

November 3rd

PALAIS ROUGE (Jerónimo Salguero 1431, Buenos Aires)		
8 :00 – 19 :00	Registration	
	Room Pigalle, 2 nd Floor	Room Matisse B, Ground Floor
Session	AUTOIMMUNITY - Chairmen: O. Boyer, V. Rivero	Symposiums, oral presentations and minicourses
08:30 – 09:00	L. Chatenoud Restoration of self-tolerance in experimental and clinical autoimmunity'	
09:00 –09:30	A. Gruppi : Role of Fc-gamma RIIB in the survival of B cells subsets and its association with autoimmunity.	MODULE V: Immune Deficiencies Flow cytometry in diagnosis, treatment and follow-up of Primary Immune Deficiencies (J. Rossi, Hospital Garrahan)
09:30 - 10:00	BIOTECH - Chairmen: A. Díaz, F. Goldbaum Romikin/Elea – Arg, Remy Urbain LFB, France	
10:00 – 10:30	Coffee break (Doree Room, 1st Floor)	
10:30 – 10:50 10 :50 – 11 :20	V. Guazzone: Breakdown of self-tolerance: Autoimmune Orchitis 2 Selected abstract (10 min presentation and 5 min discussion)	MODULE VI: FRET and BRET Methods for screening, study (BRET and FRET), and use for drug targeting (J. Iovanna,, INSERM, Marseille, France)
11:20 – 11:50	R. Liblau : Animal models of CNS autoimmunity: what have we learned?	
11:50 – 12:20	J. Lafaille : Regulatory T cells that control autoimmune diseases: antigen specificity and timing of protection	
12:20 - 14:30	Rodin Room, 2nd Floor : Immunology I (Posters)	
Session	IMMUNODEFICIENCY - Chairmen: F. Rieux Laucat, L. Bezrodnik	Neuroimmunology: Chairmen: Dr. E. Arzt
14:30 – 15:00	S. Rosenzweig: Genetic susceptibility to fulminant A Hepatitis	Symposium : D. Verthelyi TLRs as therapeutic targets in CNS inflammation and infection C. Perez Leirós
15:00 – 15:30	J. Bustamante A new mechanism of X-linked anhidrotic ectodermal dysplasia with immunodeficiency: impairment of ubiquitin binding despite normal folding of NEMO protein	
15:30 –16:00	BOITECH - Chairmen: P. Maffia Lic. Marcelo Arguelles (BioSidus – Arg); Stallergene, Philippe Moingeon : Sublingual vaccines for respiratory allergies.	Immunology II: Oral Presentations
16:00 - 16:30	Coffee break (Doree Room 1st Floor)	
16:30 – 17:20	4 Selected abstract (8 min presentation and 6 min discussion)	Autoimmunity and Immunotherapy : Chairmen : Dr. Clelia Riera M. Perone : Immune interventions in type 1 diabetes: blocking progression towards uncontrollable autoimmunity. G. Prat Gay: Molecular basis for the recognition of DNA by auto-antibodies: implications for autoimmune disease.
17:20 – 17:50	F. Rieux Laucat : “Genetic bases of Primary Immunodeficiencies accompanied with auto-immune manifestations”	
17:50 – 18:30	Critical Topics: A. Ginaca: “Searching Primary Complement Immunodeficiency ” S. Danielian: “Selecting THE gene in PIDs: a variety of disorders but overlapping characteristics”	Immunology III: Oral Presentations
18 :30 -19 :30	Leonardo Satz Conference – Chairman: Prof. L. Fainboim Alain Fischer: Primary Immuno-Deficiencies: Pathological models to study the human immune system development	

November 4th

PALAIS ROUGE (Jerónimo Salguero 1431, Buenos Aires)					
Registration					
Room Pigalle, 2nd floor		Room Matisse A Ground floor	Room Matisse B (Ground floor)		
Session	ALLERGY-INFLAMMATION - Chairmen: A. Magnan, G. Docena	Infections: Chairman: V. Garcia H. Lujan: Disruption of antigenic variation is crucial for effective parasite vaccine M. Gherardi: Relevance of HIV-1 subtype specific immunity in the development of vaccines for Argentina S. Di Genaro	SAP		
08:30 - 09:00	A. Larregina: Regulatory role of pro-inflammatory neuropeptides in cutaneous T helper immune response: contact and atopic dermatitis immunity		8:30- 8:45	Welcome by L. Bezrodnik	
9:00 - 09:30	N. Glaichenhaus: Breast milk immune complexes are potent inducers of oral tolerance in neonates and prevent asthma development.		8:45- 9:30	S. Amigorena: Fagosome Functions. Coordinator: M. Zelazko ; Secretary: I. Uriarte	
9:30 - 10:00	BIOTECH – Chairmen : F. Chirido Amega Biotech, Argentina,	9.45-10:30	A. Fischer : Gene therapy of primary immunodeficiencies Coordinator: S. Danielian ; Secretary: A. Lozano		
Coffee Break (Doree Room 1 st Floor)					
10:30 - 10:50	2 Selected abstract (8 min presentation and 4 min discussion)		11:00-12:45	Round Table: Update in Chronic Granulomatous Disease (CGD) Coordinator: H. Díaz; Secretary: J. Orellana •S. Rosenzweig: CGD in 2010. •A. Condino: CGDE in tuberculosis. •L. Bezrodnik: Intestinal disease and B lymphocytes commitment	
10:50 - 11:20	J-M Sallenave: Secretory leukocyte protease inhibitor and elafin/trappin-2 : versatile mucosal antimicrobials and regulators of immunity				
11:20 - 11:50	A. Tscopoulos: Chemokines in allergic diseases, beyond migratory functions				
11:50 - 12:30	Critical Topics: A. Trevani: Matrix extracellular DNA is a relevant pro-inflammatory component of bacterial biofilms, V. Delpino: Osteoarticular Brucellosis: inflammation, matrix metalloproteinases and induction of osteoclastogenesis				
Rodin Room, 2nd Floor Immunology IV (Posters)					
Session	INFECTIOUS DISEASES - Chairmen: C. Leclerc, O. Bottasso	Immunology V: Oral presentation	14:30-16:00	Oral Presentations	
14:30 - 15:00	A. Epstein: How to defeat immunity. A virologist's point of view				
15:00 - 15:30	J.C. Sirard: Mucosal detection of microorganisms: outside or inside taste different				
15:30 - 16:00	BIOTECH – Chairmen : N. Amiano Inmunova - ArgFrance				
Coffee Break (Doree Room 1 st Floor)					
16:30 - 17:00	E. Zúñiga Immune Dysregulation During Chronic Viral Infection	4 Selected abstract (8 min presentation and 6 min discussion)	16:30-17:15	J. Bustamante: Mendelian susceptibility to mycobacterial diseases. Coordinator: N. Pérez; Secretary: A. Lozano	
17:00 - 18:00	Critical Topics: V. Garcia: Cytokine production by signaling proteins during immune response against M. tuberculosis, M. del C. Sassiain: Influence of Mycobacterium tuberculosis genotypes on the host immune response Romina Goldszmid: Mechanisms controlling IL-12 production by different dendritic cell subsets during acute T. Gondii infection		17:30-18:15	F. Rieux-Laucat : Impact of somatic genetic events in Autoimmune lymphoproliferative syndrome. Coordinator: C. Riganti; Secretary: G. Belardinelli	

18:00 – 18:30	Up-date on Grant Applications for France-Argentina Collaborations Sylvain LEONARD (Agregado Cultural, Embajada de Francia en Argentina) Karina Pombo (Ministerio de Ciencia y Tecnología).			
18:30 – 19:30	Assembly of the SAI			

Day 5, November

PALAIS ROUGE (Jerónimo Salguero 1431, Buenos Aires)				
8:00 – 19:00 Registration				
	Room Pigalle, 2 nd Floor	Room Matisse A Ground Floor	Room Matisse B Ground Floor	
Session	CANCER - Chairmen: A. Bensussan, N. Zwirner	Tolerance – Chairmen: L. Lustig, T. Gentile	SAP	
08:30 – 09:00	Vassili Soumelis: TLR-independent pathways of immune activation in human tumor microenvironment	L. Arruvito: A physiological role for Inducible FOXP3+ Treg cells. Lessons from women with reproductive failure. Oliver Boyer: Tolerance and tolerization to antigens expressed in muscle J.L. Touraine: Immunological tolerance to both donor and host, and "allo+x" recognition of antigen	08:30-10:00	Round Table: Primary Immunodeficiency Patients Recording. Coordinator: D. Di Giovanni; Secretary: G. Seminario A. Condino: LASID Recording in 2010. A. Gómez Raccio: One Center recording in Buenos Aires City Three Centers experience: M. Galicchio: Rosario; J. Orellana: Córdoba; L. Regairaz: La Plata
9:00 – 09:30	D. Klatzmann: Cancer immunosurveillance or no cancer immunosurveillance?			
09:30 - 10:00	BIOTECH – Chairmen: A. Díaz, R. Diez L. Alonso: A cost-effective prophylactic HPV vaccine for massive application, XBIO, SA, Arg; Ch. De Romeuf, LFB: EMABLING® antibodies: from fetomaternal alloimmunisation prophylaxis to chronic lymphocytic leukaemia therapy.			
10:00 – 10:30	Coffee Break (Doree Room 1st Floor)			
10:30 – 11:20	4 Selected abstract (8 min presentation and 4 min discussion)	Immunology VI: Oral Presentations	10.30-11.45	Round Table: Gammaglobulin in Primary Immunodeficiency patients (PIDP). Coordinator: L. Castro Zorrilla; Secretary: C. Cantisano D. Liberatore: IVIG Indications in PIDP; M. Galicchio: IVIG: Mechanisms of action D. Di Giovanni: IVIG usage impact in PIDP.
11:20 – 11:50	Wolf-Hervé Fridman: Immune control of human tumors	Dendritic Cells- Chairman: J. Geffner. A. Morelli: Therapeutic Dendritic Cells in Transplantation: Their regulatory function unveiled in vivo through flow cytometric analysis of anti-donor T cells; C. Cuturi; C. LeClerc.: Antigen delivery to MGL+ CD103- dermal dendritic cells favors Th2 responses and the induction of potent anti-tumoral antibody responses, in the absence of adjuvant		
11:50 – 12:30	Critical Topics: Mariana Maccioni + Stella Maris Ranuncolo		11:45-12:15	Aid association for PIDP Sra. R. Pena; Secretary: D. Díaz Ballve
12:30 - 14:30	Rodin Room 2nd Floor Immunology VII and SAP (Posters)			
Session	TRANSPLANTATION - Chairmen: Ignacio Aneón, Martín Rumbo	Perspectives in Biotechnology- Chairman: R. Diez		
14:30 – 15:00	I. Aneón: CD8+ Treg cells in a model of organ transplantation tolerance	M.L. Cerutti: Oncoprotein based immunotherapy for HPV linked to cervical cancer		
15:00 – 15:30	S. Maury: Regulatory T-cells in allogeneic stem cell transplantation: a phase I/II clinical trial	D. Pardo: BIOTECH 2010, challenges and opportunities in South America		
15:30 – 16:00	BIOTECH – Chairmen : A. Díaz, P. Maffia Bernard Vanhove, TcL Pharma : Developing an immunosuppression compatible with Treg function, France. Centro Hemoderivados de Córdoba, Arg			

16:00 - 16:30	Coffee Break (Doree Room 1st Floor)	
16:30 - 17:00	M. Braun: T Cell Adaptation to chronic antigen stimulation.	
17:00 - 18:00	Critical Topics: A. Toubert: Thymic function in allogeneic Hematopoietic Stem Cell Transplantation in Humans. F. Cicora: Immunological and non immunological factors of tissue damage in kidney transplant	
18:00 - 19:15	Leonardo Satz Award	
19 :30 - 20 :30	Closing Conference- Chairman: E. Chuluyan G. Rabinovich: Tolerogenic circuits driven by galectin-glycan lattices in the resolution of inflammation	
22 :00	Closing Dinner
